*Read the following advertisement and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks.*

### POP CONCERTS ARE CLOSER TO YOU!

Our platform is created (1) \_\_\_\_\_ you time and effort. We are offering you access to (2) \_\_\_\_\_ featuring the most popular artists worldwide. Your tickets will be delivered directly to your email, ensuring secure experiences. (3) \_\_\_\_\_ goodbye to waiting in long lines or worrying about missing out on the best seats. With exclusive deals (4) \_\_\_\_\_ to online users, you can enjoy the concert you've been dreaming of at an unbeatable price. Join thousands of fans excited by incredible performances and (5) \_\_\_\_\_ moments. Booking your ticket has never been easier - just a few clicks, and you're ready to go! Don't wait until it's too late. All information is available on our website and secure your place now (6) \_\_\_\_\_ the concert that will leave you thrilled!

**Question 1:** A. to saving                      B. to be saved                      C. saving                      D. to save

**Question 2:** A. events music spectacular                      B. spectacular music events  
C. spectacular events music                      D. music spectacular events

**Question 3:** A. Tell                      B. Say                      C. Talk                      D. Speak

**Question 4:** A. that giving                      B. to given                      C. were given                      D. given

**Question 5:** A. unforgettable                      B. forget                      C. forgettable                      D. forgetful

**Question 6:** A. to                      B. of                      C. by                      D. at

*Read the following leaflet and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks.*

### Join Our Cultural Exchange Program!

Participating in a cultural exchange is an exciting opportunity to learn and share experiences with others. Here are a(n) (7) \_\_\_\_\_ of important things to do:

- **Prepare Your Materials:** Bring along your photos, traditional clothing, and recipes, ect., to share with your host community.

- **Get Involved:** Take part in local activities and engage with (8) \_\_\_\_\_ participants. Don't hesitate to (9) \_\_\_\_\_ new challenges whether it's learning a new skill or adapting to a different lifestyle.

- **Learn About the Culture:** (10) \_\_\_\_\_ only observing, making an effort to participate and understand the traditions and customs of your host community.

- **Share Your Culture:** Be open to presenting your own culture through presentations, performances, or cooking (11) \_\_\_\_\_.

- **Stay Respectful:** Remember to respect differences and be (12) \_\_\_\_\_. This exchange is about learning from each other.

Let's make this cultural exchange a memorable experience for everyone involved!

- Question 7:** A. number                      B. deal                      C. quality                      D. amount  
**Question 8:** A. others                      B. the other                      C. another                      D. other  
**Question 9:** A. make up                      B. take on                      C. break up                      D. get over  
**Question 10:** A. On account of                      B. With regards to                      C. Instead of                      D. In spite of  
**Question 11:** A. demonstrations                      B. accountability                      C. administration                      D. allowances  
**Question 12:** A. narrow-minded                      B. open-minded                      C. convinced                      D. ashamed

*Mark the letter A, B, C or D on your answer sheet to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions.*

- Question 13:** a. Jake: Hey, Sarah! You look excited! What's new?  
b. Jake: Wow, that's really smart!  
c. Sarah: Hi, Jake! I just saw a new invention - a self-charging phone! It uses solar energy.

A. c - a - b                      B. b - c - a                      C. c - b - a                      D. a - c - b

- Question 14:** a. Leo: But it causes conflicts sometimes, doesn't it?  
b. Nina: Maybe, it's a challenge, but understanding and respecting each other can solve that.  
c. Leo: I agree, it's important to teach everyone to appreciate diversity.  
d. Leo: Why is cultural diversity important?  
e. Nina: It helps us learn from each other and grow.

A. c - b - a - e - d                      B. c - e - d - b - a                      C. d - b - a - e - c                      D. d - e - a - b - c

- Question 15:** Hey Thanh,  
a. Phan Bội Châu traveled to many countries to seek support for Vietnam's freedom, too.  
b. He worked hard to gain independence for Vietnam in the early 1900s.  
c. Up till now, his writings and actions continue to inspire many people.  
d. Not only that but he is also known for his strong spirit and dedication to the cause.  
e. I want to share my thoughts about Phan Bội Châu, a famous Vietnamese nationalist.  
Write back soon.

Vân

A. e - c - a - b - d                      B. e - b - a - d - c                      C. a - d - b - c - e                      D. a - c - d - b - e

- Question 16:** a. I've already worked on some personal design projects, but this internship will give me real-world experience.  
b. I hope to learn more about the design industry and build my portfolio.  
c. Overall, I'm eager to gain new skills and make valuable connections during my time there.  
d. I'm really excited to start my new internship in graphic design next month.  
e. I've always been passionate about art and design, and this internship is a great opportunity for me.

A. d - e - a - b - c                      B. a - d - e - b - c                      C. b - e - a - c - d                      D. d - e - c - b - a

- Question 17:** a. The influx of young professionals seeking modern amenities has resulted in a 15% rise in population.  
b. While the area has seen a boom in retail and entertainment options, the increased demand for housing has driven up property prices, making it harder for residents to afford living in the area.

- c. This shift towards urban development has brought economic growth, attracting new businesses and residents.
- d. Greenfield has experienced rapid changes over the last few years, with the once quiet residential neighborhoods now being replaced by luxury apartments and shopping centers.
- e. Despite these changes, Greenfield still lacks sufficient public transportation, with the nearest bus station being miles away in neighboring towns.

**A.** d - b - c - e - a      **B.** d - c - a - b - e      **C.** d - a - e - b - c      **D.** d - e - b - c - a

**Read the following passage about overpopulation and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks.**

In recent years, living in cities has led to a significant increase in the number of people residing in large cities. While this change offers various opportunities, (18) \_\_\_\_\_. I will discuss some of the common problems faced by citizens and evaluate whether the government should encourage people to relocate to smaller towns.

One of the important issues faced by people living in large cities is overcrowding. With limited space and a growing population, public areas such as transportation systems, parks, and commercial centers often become crowded, which makes individuals uncomfortable. (19) \_\_\_\_\_, badly affecting the health and well-being of residents.

(20) \_\_\_\_\_. As large cities often have economic places, housing and other essential expenses can be expensive, leading to financial stress for many individuals and families. Additionally, urban crime rate is higher than in smaller towns, (21) \_\_\_\_\_.

To address these issues, some argue that governments should encourage citizens to move to smaller towns. These areas generally offer a more relaxed place of life, lower living costs, and reduced environmental pollution.

In conclusion, the challenges faced by people living in large cities are multifaceted, including overcrowding, high costs, and increased crime rates. (22) \_\_\_\_\_. However, governments should adopt a suitable approach that includes urban development strategies and ensures access to essential services.

(Adapted from <https://engnovate.com/>)

**Question 18:** **A.** it also brings some challenges in daily life

**B.** this has made life in the city easier

**C.** they also want to completely resolve all urban issues

**D.** now we can ensure access to essential services

**Question 19:** **A.** The government has issued laws to protect the environment

**B.** Also this high population density contributes to higher pollution levels

**C.** Encouraging the use of public transport has helped the city reduce pollution

**D.** Factories and companies are banned from building because they do not ensure

**Question 20:** **A.** Another problem faced by city residents is the high cost of living

**B.** City residents face low healthcare costs and better services

**C.** Public transportation systems are well-developed in cities

**D.** Housing prices are often more affordable for people in rural areas

**Question 21:** **A.** in which the improvement of public transportation networks

**B.** where we can develop more green spaces and buildings

**C.** which is creating a sense of insecurity for city residents

D. that was increased housing prices and affordability issues

**Question 22:** A. Encouraging relocation to smaller towns may help decrease these issues

B. Building more public transportation systems can reduce traffic

C. Not only causes pollution but also endangers people's safety

D. Thanks to migration to big cities, the life of residents have improved significantly

**Read the following passage about green living and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions.**

Living a green lifestyle involves making conscious decisions to **cut down on** environmental impact and promote sustainability. One simple yet effective way to do this is by turning off appliances when they are not in use. This habit saves energy, lowers electricity bills, and reduces carbon footprints. It also helps prevent dangers like electrical fires, making it both a practical and eco-friendly choice.

Another important part of green living is choosing products that are grown using natural and organic methods. Organic foods are free from harmful chemicals, making them safer and healthier to eat. **They** often taste better and support farming methods that help protect nature and reduce pollution.

Cutting down on plastic use is **essential** for protecting the environment, as plastic waste takes a very long time to break down and can harm animals and nature. By using recyclable shopping bags, refillable bottles, and avoiding single-use plastics, people can greatly reduce plastic pollution and its harmful effects on the environment.

Recycling is a key part of living sustainably. **By sorting and reusing household items, we can save natural resources and reduce waste.** Recycling also lessens the need to get new raw materials and helps protect important resources like water and trees, leading to a cleaner, healthier planet.

**Question 23:** The word “**cut down on**” in paragraph 1 is OPPOSITE in meaning to \_\_\_\_\_.

A. protect

B. minimize

C. preserve

D. increase

**Question 24:** Which is NOT a benefit of turning off appliances when they are not in use?

A. Saving energy

B. Preventing dangers

C. Lowering electricity bills

D. Reducing water usage

**Question 25:** The word “**They**” in paragraph 2 refers to \_\_\_\_\_.

A. Products

B. Organic foods

C. Harmful chemicals

D. Organic methods

**Question 26:** The word “**essential**” in paragraph 3 could be best replaced by \_\_\_\_\_.

A. important

B. unimportant

C. optional

D. irrelevant

**Question 27:** Which of the following best paraphrases the underlined sentence in paragraph 4?

A. Reusing household items effectively prevents the need to buy new products, thereby reducing costs and clutter.

B. Properly disposing of items reduces household waste but has little effect on resource conservation.

C. Organizing and repurposing household items minimize waste and help protect and preserve natural resources.

D. By using household items less frequently, we can significantly decrease our overall impact on nature.

**Question 28:** Which of the following is TRUE according to the passage?

A. Organic foods taste better and are always cheaper to buy.

B. Reducing plastic hinders the protection of marine life and its habitat.

C. Recycling uses up resources instead of saving them.

D. Turning off appliances can lower energy use and fire risk.

**Question 29:** In which paragraph is energy-saving through appliance use linked to eco-friendly benefits?

- A. Paragraph 1                      B. Paragraph 2                      C. Paragraph 3                      D. Paragraph 4

**Question 30:** In which paragraph is the impact of plastic's slow decomposition on the environment discussed?

- A. Paragraph 1                      B. Paragraph 2                      C. Paragraph 3                      D. Paragraph 4

**Read the following passage about sustainable energy protecting measures and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions.**

Alternative energy sources, including solar, wind, hydro, geothermal, and biomass, are crucial for a sustainable future. As societies seek to reduce reliance on fossil fuels, protecting **these** becomes essential. **Sustainable** practices can help maintain the viability of alternative energy while minimizing environmental impacts.

To protect solar energy systems, it's vital to promote policies that encourage the installation of solar panels on homes and businesses. **Additionally, public awareness campaigns can educate communities on the benefits of solar energy, helping to foster acceptance and encourage more widespread adoption.** Regular maintenance of solar panels ensures optimal efficiency and longevity.

Wind energy also requires protective measures. [I] Proper site selection for wind farms is crucial to minimize impacts on wildlife, particularly birds and bats. [II] Implementing technology that detects and reduces risks to these species can help make wind energy safer for the ecosystem. [III]

[IV] Hydropower, while a significant renewable resource, can impact aquatic ecosystems. To protect these environments, it's essential to use sustainable design practices when constructing dams and to implement fish passage solutions. Monitoring the health of aquatic ecosystems helps identify potential problems early, allowing for timely interventions.

Promoting energy efficiency alongside alternative energy adoption can further protect these resources. By encouraging **conservation** practices, such as reducing energy consumption and utilizing energy-efficient appliances, individuals and businesses can lessen demand for energy and support a sustainable energy future. Through thoughtful policies, community involvement, and responsible practices, we can protect alternative energy.

**Question 31:** The word "**these**" in paragraph 1 refers to \_\_\_\_\_.

- A. alternative energy sources                      B. fossil fuels  
C. environmental impacts                      D. sustainable practices

**Question 32:** The word "**sustainable**" in paragraph 1 could be best replaced by \_\_\_\_\_.

- A. temporary                      B. renewable                      C. mandatory                      D. depleting

**Question 33:** Which of the following best paraphrases the underlined sentence in paragraph 2?

- A. Moreover, public awareness campaigns can inform communities about the advantages of solar energy, promoting understanding and supporting its broader implementation.  
B. Moreover, public awareness campaigns discourage communities from adopting solar energy by highlighting its disadvantages.  
C. Moreover, public awareness campaigns are designed to prevent communities from learning about solar energy benefits, limiting its adoption.  
D. Moreover, public awareness campaigns focus solely on the drawbacks of solar energy, reducing its acceptance in communities.

**Question 34:** Where in the passage does the following sentence best fit?

**Furthermore, involving local communities in the planning and decision-making processes for new wind projects fosters ensures that projects meet environmental standards.**

- A. [I]                      B. [II]                      C. [III]                      D. [IV]

**Question 35:** Which of the following best summarizes paragraph 4?

- A. Dams are unnecessary for hydropower.
- B. Protecting ecosystems ignores dam design and fish passage.
- C. Monitoring ecosystems is irrelevant to hydropower.
- D. Hydropower needs suitable practices to protect ecosystems.

**Question 36:** The word “conservation” in paragraph 5 is OPPOSITE in meaning to?

- A. protection                      B. management                      C. destruction                      D. improvement

**Question 37:** According to paragraph 5, which of the following does not contribute to promoting energy efficiency?

- A. Reducing energy consumption
- B. Utilizing energy-efficient appliances
- C. Supporting fossil fuel usage
- D. Encouraging conservation practices

**Question 38:** Which of the following is TRUE according to the passage?

- A. Regular maintenance of solar panels is unnecessary for their optimal efficiency and longevity.
- B. Proper site selection for wind farms can help reduce impacts on wildlife, such as birds and bats.
- C. Hydropower has no effect on aquatic ecosystems and requires no monitoring.
- D. Alternative energy sources are independent of sustainable practices for their viability.

**Question 39:** Which of the following can be inferred from the passage?

- A. Alternative energy sources are often deemed non-essential for achieving long-term sustainability goals.
- B. Hydropower projects must incorporate sustainable design and ecosystem monitoring to mitigate their effects on aquatic environments.
- C. Routine maintenance of solar panels is not always necessary to keep their operational efficiency and effectiveness.
- D. Wind energy systems are typically designed without the need for additional safeguards to mitigate potential impacts on wildlife populations.

**Question 40:** Which of the following best summarizes the passage?

- A. Protecting alternative energy sources is essential for sustainability and involves community engagement and responsible practices.
- B. Alternative energy sources are unimportant for a sustainable future, and no protective measures are necessary for wind and solar energy systems.
- C. Sustainability relies on ignoring responsible practices and avoiding alternative energy sources.
- D. Protecting alternative energy sources is unnecessary for sustainability and can be done without community engagement.

**-THE END-**
